Veterinary Nurse Position

Job Title: Veterinarian Nurse Full time or Part Time

Location: Springwood, Gawler East

Start Date: July 27th 2022

We are on the hunt for a new nurse to join our expanding team and to help us establish and operate our new veterinary clinic in the newly created suburb of Springwood, in Gawler East South Australia.

About Us: the Cameron Veterinary Services has been owned and operated by Dr Lachlan Cameron since March 2020. To date the clinic has been acting as a mobile, predominately large animal, clinic servicing the Adelaide Hills, Gawler, Barossa and surrounding districts. However, with the expanding needs of our clients across the regions we have found the need for a more permeant base. Hence, with the help of some land developers we have teamed up with My Springwood team and Leyton Property to develop a new small animal clinic.

The Clinic: the clinic is now expanding to incorporate a purpose-built small animal hospital in the newly developed suburb of Springwood, Gawler East SA. This clinic will have three consult rooms, separate surgery and sterile preparation area, separate dog and cat wards, imaging room and vet offices.

The aim of the expansion is to create a veterinary clinic that provides a high quality of personalised veterinary care to our clients, whilst creating a positive working environment for all staff that means they want to come to work!

Some of the toys we have available:

- Radiography
- Ultrasound
- Separate sterile prep, surgery and treatment area
- iM3 dental equipment
- Blank canvas for you to develop your stamp on the clinic and your style.

We are really dedicated to providing a high-quality level of service to our clients, but not doing so at the cost of our staff! We are looking to create a supportive and friendly working environment, where our staff want to come to work and really want to help out clients.

The Right Staff Member(s): we want you, to want to work with us!

We are searching for one (or multiple) nurses to be part of our expanding clinic and base themselves in or around the new suburb of Springwood. What is the right nurse? Well we are looking for someone that is:

- Confident, with expert client communication and customer care skills.
- Has experience in the field, as they may be the sole nurse available at times
- Looking to help be part of an expanding team. We are looking to expand the team over the coming years, so someone who is keen to be a keen team member and leader helping to grow the clinic.
- Be flexible! We want to be flexible with you and the hours you want to work. The standard of working full time, 5 days a week is out dated. We want to roster a system that works for you, full time, part time etc.
- Be part of the establishment and continued development of working procedures for the clinic. Giving you the opportunity to develop and build the clinic you want to work in, from the ground up.

But why trust what we say, why not hear from one of our amazing staff members!

"I have had the pleasure of working at the Cameron Veterinary Service for about a year now. Even though I started out very new to the industry, I have been completely supported and encouraged in my career development and made to feel like a valued part of the team from the very beginning. It is really great to be a part of a passionate, motivated and expanding team and I am super excited for the future of CVS."

Lucy Brock, Vet Nurse at CVS

Type of Work: sick of being a glorified cleaner? Tired of not being appreciated?

- We are determined that your time will not be wasted cleaning cages or mopping floors!
- Managing anaesthetics for routine and complex surgical cases
- Hospitalisation, in patient care, routine health checks.
- Client communication and assistance in providing veterinary care to both in patients and consultations.

Hours of Work: the clinic will be open six days a week, so what we are looking for is flexible nurses with flexible hours to fill the week.

- Full time options available if you want it.
- Part time positions also will be welcomed. We want you to come back in a time that you are ready, be that returning from maternity leave, not willing to work full time, or just looking to care for yourself and only work part time. Whatever! We are here to support you in the profession and get the most you can out of the hours you want to work.
- Flexible roster hours available
- No after hours requirements.

Salary: our salary will be award, and dependant on experience.

- Salary will be dependent on experience, as we are looking for an experienced nurse it will depend on experience levels.

Standard Requirements:

- The position will require a Certificate IV in Veterinary Nursing
- Minimum 2+ years experience in the veterinary industry
- A strong understanding of veterinary nursing and its duties

Springwood: Springwood is a newly developed suburb in Gawler East. The clinic will be situated on an outbuilding of a supermarket complex with expected completion in October 2022. The suburb is expanding at

a rate of knots! There is an expected 2000+ homes going into this development with an estimated 6000+ homes. The

What is available in Springwood

- Day care / child centre (literally directly over the road)
- Drakes supermarket (the clinic will be located as part of the greater complex – giving us great visibility and access)
- Doctors clinic, Pharmacy and services immediately available as part of the complex
- Great living, new and abundant housing options available in the suburb

What we want is to establish our team prior to open day, have our protocols and procedures in place so that we can hit the ground running! If you would like to discuss any of the above or have some thoughts on generating a truly modern, flexible and most importantly a fun place to work then please get in contact.

Contact: to contact the clinic or to discuss these options further please contact Dr Lachlan Cameron on 0417 846 664, or via email at lachie@cameronvets.com
